

# Did you know?

## Fluke Biomedical and RaySafe Beyond test equipment!

A full line of medical test equipment provides reliable quality assurance solutions, allowing you to test with confidence.

### CE / UL markings

Our processes during design, production, and quality control are unrivaled in this arena. Just look at the long list of approvals and certifications awarded to Fluke Biomedical and RaySafe – meeting and exceeding standards around the world.

### Many Fluke Biomedical test devices are multiuse

Our winning combination allows the technician to Carry Less and Do More. It also reduces cost of ownership in maintaining so many single use devices since you only need to deal with one manufacturer for calibration and service.

- Impulse 7000DP Defibrillator Analyzer – 3 devices in one
- VT900A Gas Flow Analyzer Ventilator Tester – 13 devices in one
- ProSim 8 Patient Monitor Simulator – 7 parameters and pressure meter sources all in 1 box
- ESA Electrical Safety Analyzer Line supports global standards

### Equipment Life Cycle

Fluke Biomedical exceeds the average life cycle of 7 – 10 years by two times with an expected life cycle of 15 – 20 years.

### ISO 9001 Quality System

Fluke Biomedical shows its ongoing commitment to quality through the continuous improvement process required by the internationally recognized ISO 9001 Quality System registration. Fluke Biomedical complies with Quality Programs ISO 9001:2015 and ISO 13485:2016.

### A2LA/NVLAP Accreditation

These accreditations provide Fluke Biomedical customers confidence that their radiation calibrations are being held to high standards.

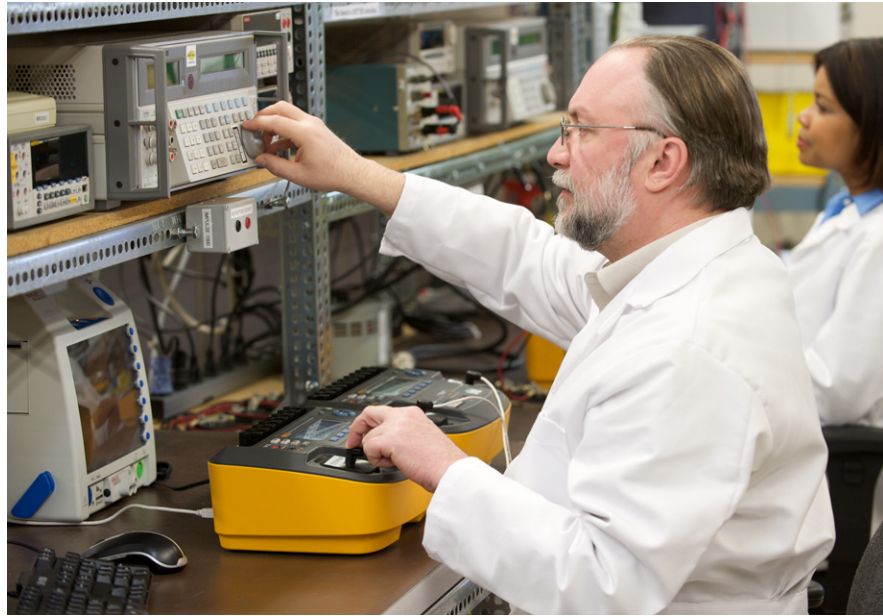

### FREE on-demand Advantage Training

We offer a great many services and resources to help you get the most from your Fluke Biomedical and RaySafe equipment. From FREE Advantage Training to a huge library of videos and application notes. On-site and virtual demonstration and training also available.

### 2-year warranty for Fluke Biomedical

Send your equipment in within the first year of ownership and receive a 2nd year warranty for free.

### Professional sales and technical support

Our team is available and ready to answer your questions. We also provide a robust online FAQ section to help troubleshoot on-demand.

### 70 Years of Experience

Expertise, and Support of the Clinical Engineering community. We're standing behind you all the way, and we're not going anywhere.

### It's time to upgrade!
